

1. How many posts has the Delhi Traffic Police (username: dtpttraffic) page made in total, since it was created, up to 5pm, August 24, 2016 IST? Pick the closest option in case your answer doesn't match one of the options.
 - a. Under 3,500
 - b. Between 4,000 and 5,500
 - c. Between 6,000 and 7,500
 - d. Between 8,000 and 9,500
 - e. **Above 10,000**

Solution: Refer to Tutorial 2 part 2 for the solution.

2. As of 5pm, August 24, 2016 IST, how many out of the 3,000 most recent posts from Delhi Traffic Police page were shared once or more? Pick the closest option in case your answer doesn't match one of the options.
 - a. 712
 - b. **1,689**
 - c. 2,471
 - d. 7,191
 - e. 4,432

Solution: Refer to Tutorial 2 part 2 for the solution. Add the "until" and "shares" parameter to the API query as follows: "&until=2016-08-24T11:30:00&fields=shares" (since 11:30:00 GMT is 5pm IST). Iterate over all posts through a loop, and use a counter to keep track of the number of posts. Add an "if" condition to break the loop if the counter hits 3,000. Use another variable to keep a track of the no. of posts where post['shares']['count'] exists (and is greater than 0).

3. As of 5pm, August 24, 2016 IST, how many out of the 3,000 most recent posts from Delhi Traffic Police page did NOT have a text 'message'? Pick the closest option in case your answer doesn't match one of the options.
 - a. Less than 250
 - b. 250 to 500
 - c. **500 to 750**
 - d. 750 to 1,000
 - e. Above 1,000

Solution: Similar to Question 2. Use "message" instead of "shares" in the "fields" parameter. Use an "if" condition to check "if 'message' in post" and count the number of posts using a counter variable.

4. As of 5pm, August 24, 2016 IST, how many out of the 3,000 most recent posts from Delhi Traffic Police page were of type 'photo'? Pick the closest option in case your answer doesn't match one of the options.
 - a. Less than 200

- b. 200 to 500
- c. 500 to 1,000**
- d. 1,000 to 2,000
- e. Above 2,000

Solution: Similar to Question 2. Use “type” instead of “shares” in the “fields” parameter. Use a counter and increment it “if post[‘type’] == ‘photo’”.

- 5. Which of the following is the easiest way to obtain the number (count) of likes on a Facebook post published by a Facebook page?
 - a. `postid?fields=likes.count`
 - b. `pageid_postid?fields=likes.summary(true)`**
 - c. `postid?fields=likes.count(true)`
 - d. `pageid_postid?fields=likes,summary`

- 6. Which of the following is a legitimate Citibank URL?
 - a. `https://citibank.online.com/`
 - b. `https://citi.online.com/`
 - c. `https://online.citi.com/`**
 - d. `https://online.citi.bank/`

- 7. Which of the following is the legitimate profile of the cricket player Sachin Tendulkar?
 - a. `@sachintendulkar`
 - b. `@srtendulkar`
 - c. `@sachin_rt`**
 - d. `@trendulkar`

- 8. Which of the following is the correct “channel ID” for this course on YouTube?
 - a. `UCCeB_XJKcd4VhCwN_UbBs8A`
 - b. `UCHWDvGDh4QjWbV79bM2neSg`**
 - c. `noc16_cs07`
 - d. `psosmonnptel`
